

An inspection certificate is supplied as standard. Refer to page U-11 for details.

Dial Test Indicator SERIES 513 — Horizontal (20° Tilted Face), Vertical, and Parallel Types

- Specially designed for easy viewing of dial.

- The dial face obliquely faces upward, allowing users to read the graduations from the user's side. It is convenient when probing on the side of a large workpiece and the workbench is high.

- Using the universal holder allows easy hole centering. The dial face always faces upward when the indicator is rotated, which makes reading easy.

- Carbide contact point (Slightly magnetic)

- Carbide contact point (Slightly magnetic)

- With revolution counter
